## **MDI Medical offers new healthcare plan to its travelers**

NORCROSS, GA – MDI Medical, which employs traveling healthcare professionals for travel and permanent positions in occupational therapy, physical therapy, speech language pathology and imaging, announces it is now offering supplemental health insurance for its travelers.

Providing health insurance to traveling consultants is rare in the staffing industry, according to Ella Kosciak, CEO of MDI, parent company of MDI Medical. "Offering this benefit to our traveling medical specialists really sets MDI Medical apart as an industry leader," said Kosciak. "We take pride in providing our consultants with the very best in compensation and benefits, and that helps us attract the most dependable, most professional, most experienced people to serve our clients. It's a win-win for everyone."

Kosciak said the special health insurance is offered through AETNA, and is 100 percent paid by MDI for single employee coverage. And, because of MDI's contribution, the cost of the plan for family coverage can be as low as one-fourth of what the traveling employee would pay for regular health insurance coverage.

MDI Medical now provides nearly 100 traveling medical specialists nationally to hospitals, skilled nursing facilities and imaging service providers. These travelers are engaged in assignments from four to 52 weeks and support MDI Medical's clients when supplemental staff is needed. Launched in late 2002, MDI Medical now has revenues of \$7 million annually.

## **About MDI**

MDI is a professional consulting and staffing firm with three divisions – IT Services, Finance and Accounting, and Medical Staffing. The firm specializes in project services and professional staff augmentation, and each division meets its clients needs by providing talented resources supported by best practices. MDI's IT Services Division delivers project governance and technical staffing services, the Finance and Accounting division provides senior-level professionals providing F&A services, and MDI Medical specializes in allied travel staffing for rehabilitation and imaging professionals.

Founded in 1988, MDI has recorded 18 consecutive years of profitable growth, expecting revenues of \$65 million in 2006. MDI now employs over 600 people nationally out of offices in Atlanta, GA (HQ); Birmingham, AL; Columbus, GA; Dallas, TX; Greenville, SC; and Phoenix, AZ.
